DETAILED ACTION

Drawings

1. The drawings were received on November 23, 2009. These drawings are accepted.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 4-9, 12-18, and 23-34 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Amended claim 23 and newly added claim 24 each recite the following: "a space holder for replacing a spinal disc or vertebrae adjacent to the connection element..."

Applicant discloses this space holder in conjunction with the bone anchoring/spinal stabilization device in FIG 8. However, it is clear that the bone anchoring/spinal stabilization device and the space holder are separate devices capable of being used together. Claims 23 and 24 do not clearly express that the space holder is separate from the bone anchoring/spinal stabilization device. Accordingly, claims 4-9, 12-18, and 23-34 are rejected under 35 U.S.C. 112 1st paragraph since claims 23 and 24 set forth that the space holder is attached to the bone anchoring/spinal stabilization device, which is a feature not originally disclosed by applicant.

Response to Arguments

4. Applicant's arguments with respect to claims 4-9, 12-18, and 23-34 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
